Comfort and Confidence

The Smile You've Always Wanted

Everyone deserves to have the confidence and smile of his or her dreams. Sensation M's unique design gives your orthodontist complete control over your treatment to achieve a smile you'll love.

Your orthodontist has selected Sensation M braces for these reasons:

- Improved hygiene
- No elastic ties necessary
- More time between visits, while still providing efficient tooth movement and convenience for your schedule
- Smooth contours, rounded edges, and smaller dimensions for a superior look and more comfortable experience – so you can smile confidently while wearing your braces

Ask your Orthodontist about starting your treatment today with SensationTM M braces!
